

Make a Folding Pirate Telescope

You will need

3 Cardboard tubes, A piece of cellophane
sticky tape and 2 pieces of string
Also colouring pens and scissors

Start by joining the tubes together. Put the string
inside the tubes and tape at the bottom of each
tube, on either side.

Now colour in your tubes. In any pattern or design you
choose.

Then draw on your piece of cellophane, a ship or lighthouse maybe a mermaid.

Attach it to the end of your telescope with tape. Add some tinfoil to make it shiny.

Your telescope is complete use it and keep a look out.
