POST HEARINGS NOTE 3 – Question from Dr A Murdoch and Inspector response

Dr Angus Murdoch

Thank you for your email of today's date which included the Inspector's post Hearing Note.

In that Note the Council is afforded a further opportunity to submit additional written evidence on Matter 14. At the Hearing I raised concerns about the fairness of the procedure if the Council was afforded a further opportunity to present additional written evidence when the other participants were not afforded the same opportunity and had been restricted to just 2000 words. You will note that both the National Federation of Gypsy Liaison Groups and Ruston Planning also objected on these grounds. If the Council is to be given a further 21 days to submit additional evidence, then I would request that once that evidence has been received, a similar opportunity to comment on that evidence is given to us as well please.

Inspector

The Inspector fully appreciates the points you make and will give the opportunity to comment on the Council's submissions.

Obo Paul Griffiths
INSPECTOR
